

Kiss your sweet aerosol goodbye.

Only one topping comes out On Top.[®]

On Top[®]. Made for foodservice by foodservice professionals. Aerosol toppings were developed for home use. They were fun at slumber parties, but for a restaurant? Aerosols ooze

and lose their shape within seconds. They waste money, too. The percentage of content that doesn't even come out would appall you. On Top[®] was specifically created for foodservice.

With complete yield, great taste and the kind of results you'd expect from a professional, only one topping delivers. On Top[®]. TOPPINGTRUTH.COM 1-800-45-RICH'S

RICH'S[®]
